

Steven Kim

IT Support | Technical Support | Systems & Infrastructure Operations

SUMMARY

IT graduate with hands-on experience operating and troubleshooting self-hosted Linux infrastructure and supporting users of an online platform. Experienced in systematic troubleshooting, log analysis, system configuration, upgrades, backup and recovery validation, and operational documentation. Comfortable working across Linux, macOS, and Windows environments, with multilingual communication skills in Korean, Japanese, and English.

CORE SKILLS

- IT Support & Troubleshooting
- Linux Server Administration
- System & Infrastructure Operations
- Log Analysis & Root-Cause Investigation
- TCP/IP & Networking Fundamentals
- Docker & Git/GitHub
- Nginx, PostgreSQL, Redis, MariaDB
- Backup, Recovery & Upgrade Validation
- Technical Documentation

EXPERIENCE

Mastodon Server Administration | Nov 2022 – Present

- Operate and support a self-hosted public Mastodon service serving up to 165 monthly active users.
- Diagnose application and infrastructure problems using logs, command-line tools, and systematic troubleshooting.
- Manage configuration, software upgrades, backups, and routine maintenance in an Ubuntu-based production environment.
- Investigate recurring incidents, identify root causes, and document fixes and prevention measures.
- Maintain operational runbooks, incident records, and upgrade notes for repeatable problem resolution.

LibreWiki Homelab | 2026

- Built an Ubuntu Server environment with Nginx, PHP-FPM, MariaDB, and MediaWiki.
- Reproduced and tested MediaWiki compatibility, content migration, extensions, and wiki customizations in an isolated environment.
- Diagnosed configuration, request-size, session, rendering, and extension dependency issues through logs and controlled testing.
- Tested database backup and restoration procedures and documented setup and troubleshooting findings on GitHub.

EDUCATION

Hanbat National University

B.S. in Information and Communication Engineering | Graduated February 2026

LANGUAGES

Korean — Native

Japanese — Business

English — Professional
